

RECEPMAG10U

Wide Format / Sol-Eco-UV-Latex Media

Read&Co.

10mil PET Receptive Magnetic Roll

Is our PET receptive roll stock

- Stainless ferrous paper that adheres to magnetic media (not to steel)
- Use with MAGNET ROLL for easily interchangeable graphic panels, POP displays and menu boards
- As thin as 0.010" overall thickness
- Up to 60" wide
- Direct printable PET or PP, dry erase PET film or green PVC chalkboard
- Excellent white point and dyne value on print surfaces
- Compatible with UV and latex inks

Lamination & Mounting

This product has been tested and approved for use with Read&Co. laminates and adhesives. Read Inkjet laminates provide durable protection from abrasion, moisture, Ultraviolet light and various types of damaging effects on indoor and outdoor applications. Recommendations for cold/pressure sensitive lamination and adhesives are SPEED: 3-5 feet per min and PRESSURE: 20-40psi (recommendations vary depending on the laminator, model and other variables). Read Lamination and Adhesives provide quick and efficient quality results without the need for heat.

Uv Curable And Latex Compatibility

This product is universally compatible with uv curable and latex wide format digital inkjet printers. Read&Co inkjet materials provide an expanded color gamut and higher ink saturation for richer, more brilliant colors. Individual results may vary. Test thoroughly for your specific application.
